## **FOREWORD**

The 2024 County Budget Review and Outlook Paper (C-BROP) has been prepared in accordance with the requirements of section 118 of the Public Finance Management Act 2012. This policy document reviews the county government's fiscal performance for the financial year FY2023/24, assessing adherence to the principles of fiscal responsibility and the financial objectives contained in the Public Finance Management Act (PFMA) 2012. It also gives updates on the macroeconomic environment and fiscal projections for FY2025/26, including revenue and expenditure forecasts as well as provisional sector expenditure limits.

This 2024 C-BROP is prepared amidst ongoing global uncertainties, marked by high but decreasing inflation pressures, sluggish global growth expectations, increased geopolitical tensions, particularly concerning the conflict in Ukraine and recently in the middle east, worries about financial stability in advanced economies, and heightened food insecurity due to climate-related changes. These challenges have caused negative effects to macro-economic environment in the domestic economy. The effects are manifested in high costs of essential household items, such as fuel and food, and a depreciation of the Kenyan Shilling, thus increasing the pressure on the cost of servicing the public debt.

The National Government has initiated policy measures to counter these adverse shocks and has begun structural reforms under the Bottom Up Economic Transformation Agenda (BETA), as outlined in the Fourth Medium Term Plan. BETA aims to reduce the cost of living, eliminate hunger, create job opportunities, expand the tax base, and improve foreign exchange reserves and promote inclusive growth through a value chain approach. To achieve these goals, particular attention will be given to five key pillars with significant potential to drive and sustain economic recovery and enhance household welfare. These include:-Universal Health Care: Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME) Economy; Housing and Settlement; and the Digital Superhighway and Creative Industry. The growth outlook for 2025 will be bolstered by the ongoing BETA interventions.

To complement the efforts of the National Government under the BETA initiatives, the County Integrated Development Plan 2023-2027 has been aligned to the achievement of the national development priorities. The County Government has;-(i) invested heavily in Health to guarantee

the achievement of universal health coverage;(ii) empowered farmers through the provision of farm inputs including provision of fertilizers, certified seeds and seedlings and upscaling of micro irrigation to minimize the over-reliance on rain fed agriculture;(iii) initiated a youth and women empowerment programme through mobilization of women and youth into groups to form companies to secure county government tenders for supplies of goods and services and also works;(iv) fast tracked industrial growth through the construction of the Aggregated Industrial Parks in Mwananyamala, Dzombo ward Lungalunga sub county and the completion of fruit processing plant in Shimba hills Kubo South and (v) strengthened governance in public finance management so that wastage of resources is curtailed and allocative efficiency is guaranteed to ensure priority programmes are adequately funded.

During the period under review, the county fiscal performance was satisfactory amidst the various challenges faced in budget implementation. On the revenue side, the county government received a total of **Kshs 11.6 billion** against the target of **Kshs 14 billion** implying **81 percent** performance. This is a slight decline of about 4 percent in performance from the previous financial year 2022/2023 where performance was **85 percent**. The actual revenue received was Ksh.10.1 billion against the target of Ksh 11 billion. The main reason for the decline in performance was due to the irregular release of funds from the National Government and non-receipt of most of the additional allocations, chief among them the unconditional grant on mining royalties amounting to **Kshs 1.16 billion**. These funds had been budgeted to finance key development projects in the FY 2023/2024. Performance of own source revenue improved from Kshs 392,952,872 collected in FY 2022/2023 to **Kshs 427,380,000** in FY 2023/2024 thus an increment of about 8.8 percent.

Under the expenditure front, the County Government spent **Kshs 10.2 billion** against the total budget of **Kshs 14.3 billion** implying **71.4 percent absorption**. This is a decline from the 81 percent absorption achieved in the previous financial year 2022/2023. The reason for the decline was due to the late disbursement of funds and non-release of grants including the mining royalties which had been budgeted to undertake most of the development projects.

Going forward, the County Government will implement a fiscal policy strategy to strengthen revenue collection through enforcement on the major revenue streams and enhancing automation for efficient tax administration. Challenges to achieve the targeted revenues are anticipated due to

the operationalization of the Facility Fund Improvement (FIF) programme in the health facilities. Revenues from Health Services have been one of the county government “cash cow” income. On the expenditure side, the County Government will strengthen governance in public finance management by curtailing the growth of recurrent expenditures and save resources to channel them to our development priorities. More specifically, the county government’s priority and transformative projects will be funded adequately to guarantee their completion for rapid socio economic transformation.

This 2024 CBROP provides a basis for the revision of the medium term expenditure framework budget for financial year 2024/2025. The County Government completed the financial year 2023/2024 with huge pending bills and commitments which must be brought forward in the FY 2024/2025 budget. This will enable service providers to be paid and align the scarce resources to the County Government’s priorities. The FY 2024/2025 budget will be implemented under condition of uncertainties following disagreements on the Division of Revenue Bill and the enactment of the County Allocation of Revenue Bill. Disbursement of funds to counties is likely to be affected causing liquidity strain. The County Government will monitor these risks and institute mitigation measures to counter them.

**Hon. Bakari Sebe**

**Executive Committee Member for Executive Services, Finance & Economic Planning**

## **ACKNOWLEDGEMENT**

The preparation of the 2024 County Budget Review and Outlook Paper (CBROP) has been through the collaborative effort of a number of players. We would like to extend our heartfelt gratitude to all those who contributed to the successful production of this paper. First and foremost, we thank the County Executive Committee for their unwavering support and guidance throughout the budgeting process.

We are particularly grateful to the department of Executive Services, Finance and Economic Planning for their expertise and diligent work in compiling the financial data and analysis presented in this paper. The information given is detailed and accurately presented. This has enhanced the credibility and soundness of this document. Special thanks also go to the various stakeholders, including community leaders, civil society organizations, and local businesses, who provided valuable insights and feedback during the consultations. The engagement has enriched the review process and ensured that our budget reflects the needs and aspirations of the people of Kwale County.

We also acknowledge the contributions of our technical team led by Mr. Athuman Mwatunza, the Director Budget and Economic Planning, whose hard work and dedication made the preparation of this document possible. The team is committed to ensuring excellence in preparation of fiscal policy documents. The collective effort of the team is much appreciated. Finally, for those whom I might not have mentioned your invaluable inputs are also appreciated.

**CPA Alex Onduko Thomas,**

**Chief Officer Finance, Executive Services and Economic Planning**

## **LEGAL BASIS FOR THE PREPARATION OF THE COUNTY BUDGET REVIEW AND OUTLOOK PAPER**

Section 118 of the Public Finance Management Act, 2012 states that:-

1. The County Treasury shall prepare and submit to the County Executive Committee for approval, by 30th September in each financial year, a County Budget Review and Outlook Paper which shall include:-
  - a) Actual fiscal performance in the previous financial year compared to budget appropriation for that year;
  - b) Updated economic and financial forecasts with sufficient information to show changes from the forecasts in the most recent County Fiscal Strategy Paper
  - c) Information on how actual financial performance for the previous financial year may have affected compliance with fiscal financial responsibility principles or the financial objectives in the latest County Fiscal Strategy Paper;
  - d) The reasons for any deviation from the financial objectives together with proposals to address the deviation and the time estimated to do so.
2. County Executive Committee shall consider the County Budget Review and Outlook Paper with a view to approving it with or without amendments, not later than fourteen days after its submission.
3. Not later than seven days after the County Budget Review and Outlook Paper has been approved by the Executive Committee, the County Treasury shall:-
  - a) arrange for the Paper to be laid before the County Assembly
  - b) as soon as practicable after having done so, publish and publicize the Paper

## EXECUTIVE SUMMARY

The 2024 C – BROP has been prepared in line with the requirements of Section 118 of the PFM Act, 2012. This policy document reviews the county government's financial performance for FY2023/24, assessing adherence to fiscal responsibility principles and the financial goals outlined in the PFM Act 2012. It also provides updates on the macroeconomic context and projections for FY2025/2026, including provisional sector ceilings.

This report is prepared against a backdrop of ongoing global uncertainties, marked by elevated but declining inflationary pressures, a sluggish global growth outlook, intensified geopolitical tensions, especially regarding the conflict in Ukraine and recently in the middle east, worries about financial sector stability in developed economies, and rising food insecurity due to climate-related disruptions. Nevertheless, Kenya's real Gross Domestic Product (GDP) expanded by 5.6 per cent in 2023 compared to a revised growth of 4.9 per cent in 2022. The positive growth was notable across most sectors of the economy. The Agriculture, Forestry and Fishing sector grew by 6.5 per cent in 2023, marking a recovery from the 1.5 per cent contraction recorded in 2022. This recovery was mostly attributed to favorable weather conditions that prevailed through most of the year.

For the FY2023/24 budget, total actual revenues from all sources amounted to **Kshs 11,619,777,017**, compared to a target of **Kshs. 14,259,668,763**, achieving approximately **81.50** percent of the expected revenues. The equitable share of revenues totaled **Kshs.7, 897,375,394**.

Revenue generated from county sources was **Kshs 427,380,000** against a target of **Ksh600 million**, reflecting a performance rate of **71.23** percent. This marked an improvement from the previous financial year 2022/23, where **Ksh393 million** was collected against a target of **Ksh454.28 million**, resulting in 86.6 percent performance rate. Conditional grants received were **Ksh1.197 billion** against a budgeted amount of **Ksh2.977 billion**. The grant on Mining Royalties amounting to Ksh 1.16 Billion which was unconditional was not received.

On the expenditure side, **Ksh10.18 billion** was utilized, indicating an absorption capacity of **71.0** percent of the total approved budget of **Ksh14.26** billion. This represents a backdrop compared to the previous financial year FY2022/23, where the absorption rate was 81 percent. The County Government achieved absorption rates of **88 percent** for recurrent expenditures and **50** percent for

development expenditures. The decline in the absorption rate for development spending was due to delays in the disbursement of funds from the National treasury and the non-release of the mining royalties of Ksh 1.16Billion which had been earmarked to undertake development projects. The priority development projects which were dependent of the mining royalties could not be undertake. As a result the County Government has prepared a supplementary budget in the FY 2024/2025 to adequately fund the development priorities.

## Summary of Financial Performance Review

### Revenue performance

**Table 1: Revenue Performance Analysis**

Revenue source	Target amount (Kshs.)	Actual amount realized (Kshs.)	Variance (Kshs.)	Remarks*
Equitable Share	8,584,103,693	7,897,375,394	686,728,299	Performance below target
Conditional Grants-GoK	1,608,229,138	1,176,670,217	431,558,921	Grants suspended
Conditional Grants-Devpt Partners	42,711,863	1,111,669	41,600,194	Partially funded
Own Source Revenues	600,000,000	426,894,812	173,105,188	Performance below target
<b>TOTAL</b>	<b>10,835,044,694</b>	<b>9,502,052,092</b>	<b>1,332,992,602</b>

## **CHAPTER ONE: INTRODUCTION**

### **1.0 Overview**

1. The County Budget Review and Outlook Paper (CBROP) 2024 is the third to be developed under the new administration and is formulated pursuant to the provisions of the PFM 2012 and PFM (County Governments) Regulations 2015. This 2024 CBROP provides an assessment of the County fiscal performance for the fiscal year 2023/2024, possible deviations in revenue and expenditure and their implications for the MTEF period 2024/2025- 2026/2027. Information provided in this paper will strengthen public finance governance and assist citizens in understanding Kwale county public finances and their impact to their lives.

### **1.1 Objective of the 2024 County Budget Review and Outlook Paper**

2. The CBROP 2024 aims to provide an assessment of the County's financial performance for the FY 2023/2024, as well as an analysis of how such results affect the County's financial objectives as outlined in the County Fiscal Strategy Paper (CFSP) 2024 and the County fiscal responsibility principles as espoused in the PFM Act 2012. This information, coupled with the updated economic outlook, serves as the basis for revising the FY 2024/2025 approved budget, as well as other fiscal information necessary to guide subsequent budget and the medium-term spending plan.

3. This CBROP 2024 has provided provisional sector expenditure ceilings for MTEF budget FY 2025/2026. The sector ceilings have been prepared on the basis of the medium-term macro-fiscal forecasts and estimated resource envelop shown in Section IV of this document. The CFSP 2025 will give more details about the fiscal framework, budget performance, medium-term projections, priorities, and sector ceilings. The sector ceilings will be firmed up once approved by the County Assembly in the CFSP 2025. The county government in developing the provisional sector ceilings has taken into consideration the crucial objective of adequately fund development priorities in the next MTEF period to foster rapid socio- economic transformation.

4. The CBROP 2024 further aims to entrench linkages between policy, planning and budgeting. The CBROP will provide insights into the mid- term review of the 3rd Generation County Integrated Development Plan (CIDP) 2023- 2027 and assist in evidence based decision making when finalizing the County Annual Development Plan (CADP) FY 2025/2026 and the CFSP 2025. The CBROP 2024 will further provide the preliminary linkage between national development planning policy under the Medium Term Plan (MTP) IV which is implementing the,

the Bottom Up Transformation Agenda (BETA) initiatives and the County Integrated Development Plan through the annual budget process. Performance Management can also use the findings in this CBROP 2024 to make better assessment and review and influence future decision making.

5. This CBROP 2024 has also incorporated information on fiscal performance of the recently established municipalities; Diani, Kwale, Lungalunga and Kinango. These are key county agencies which need proper planning and budgeting for results and aligning them to the county socio economic transformation agenda .This CBROP 2024 emphasizes increased funding to the municipalities to enhance infrastructural growth in roads, water and environmental management specifically waste management.

6. The CBROP 2024 further takes into consideration the observed recent economic developments and changes in the financial and economic environment with possible implications to the County fiscal outlook. The rejection of the National Government Finance Bill 2024 will impact on the generally cash liquidity and the transfers to county governments. Further the suspension of the Kwale County Finance Act 2024 will affect revenue collection and the anticipated increase in own source revenue through the revenue raising measures articulated in the bill. The County Government will monitor the situation and institute mitigation measures to counter the risks.

7. The CBROP 2024 has been categorized into four main sections: Section I introduces the paper, Section II reviews the fiscal performance in FY 2021/2022 fiscal performance, and compliance with the fiscal responsibility principles; the recent economic developments and fiscal outlook are illustrated in Section III ; Section IV gives detailed resource allocation framework with projected sector budget ceilings and Section V concludes the paper and gives the next steps.

## **CHAPTER TWO: REVIEW OF COUNTY FISCAL PERFORMANCE FY2023/2024**

### **2.0 Overview**

**8.** This section provides details of the county's fiscal performance for the period ending 30<sup>th</sup> June 2024. Further, it describes the county revenue and expenditure performance with regard to the financial year 2023 – 2024 budget execution.

**9.** The approved revised supplementary budget for the County Government of Kwale for the financial period 2023/2024 was Kshs. 14,259,668,763. Recurrent budget amounted to Kshs. 8,131,343,268 (57%) while Kshs. 6,128,325,495 (43%) was for development activities. Under the recurrent expenditure, personnel emoluments accounted for 28.03 percent of the total budget while operations and maintenance was 29 percent.

**11.** The budget execution for the FY2023/2024 period was quite satisfactory, though hampered by revenue shortfalls occasioned by delays in the disbursement of funds from the National Exchequer and underperformance in Own Source Revenue (OSR). Despite these challenges, however, the County Government received Kshs 11.6 Billion, out of which Kshs 7.9 Billion was equitable share, Kshs 2.1 Billion were balances brought forward from the previous financial period and Kshs 1.2 Billion from conditional grants and loans. The County Government, during this period collected Kshs 427.4 Million from own sources, representing an increment of 8.75 percent compared to Kshs 393 Million collected in the previous financial period 2022/2023.

**12.** The total expenditure for the period under review amounted to Kshs 10.2 Billion against a budget of Kshs 14.3 Billion. This represents an absorption capacity of 71.42 percent. Recurrent expenditure amounted to Kshs 7.12 Billion against a budget of Kshs 8.13 Billion implying an absorption rate of 87.6 percent. The below target expenditure on recurrent category is mainly attributed to below target expenditure under operations and maintenance.

**13.** Development expenditure in the same period amounted to Kshs 3.06 Billion against a budget of Kshs 6.13 Billion. This implies an absorption capacity of 49.95 percent. The below target

expenditure on development activities was on account of below target disbursements towards development projects as a result of the reasons highlighted in 8 above.

## **2.1 Revenue Performance**

**14.** Global economic growth was projected at 3.2 percent in 2024 and 3.3 percent in 2025 from 3.3 percent in 2023. The outlook reflects economic recovery in China, Euro area, and UK, despite a slowdown in activity in the USA and Japan. On the domestic scene, the Kenyan economy is currently unwinding from the effects of negative and persistent global and domestic shocks that had pushed the economy to its lowest activity level. Kenya's economic performance is projected to remain stable over the medium term. Growth is expected to moderate to 5.2 percent in 2024 and 5.4 percent in 2025 from 5.6 percent in 2023.

**15.** During the review period, total actual revenue amounted to Kshs 11,619,777,017, out of which Kshs.7,897,375,394 came from total equitable share disbursements, Kshs 1,196,690,337 from conditional grants and loans and Kshs 2,098,331,286 being balances brought forward from the previous financial year 2022/2023. The county raised Kshs 427,380,000 from its own sources during the same period.

**16.** The total transfers from the Exchequer amounting to Kshs 9.09 Billion including equitable share and conditional grants and loans accounted for 78.25 percent of the total funds received and 63.74 percent of the total targeted revenues in the financial period 2023/2024. This represents a decline from 89.60 percent of the total actual revenues received in 2022/2023.

**17.** Compared to the revenue performance in the previous financial year 2022/2023, there is a decline in the amount of equitable share received. In financial year 2022/2023, the County received Kshs 8,265,585,516 as equitable share of revenue which declined to Kshs 7,897,375,394 in FY2023/2024 implying a decline of about 4.45 percent. Conditional grants performance showed a significant increase from Kshs 819,028,729 received in FY2022/2023 to Kshs 1,196,690,337. In FY2022/2023, a 43 percent of the anticipated amount of conditional grants and loans were received while in FY2023/2024 the county received only 40 percent against a target of Kshs 2,977,233,783. Performance of the own source revenue collection improved from Kshs. 392,952,872 collected in FY2022/2023 to Kshs 427,380,000 in FY2023/2024 implying an increment of about 8.76 percent.

**18.** Figure 1 below represents trends in the actual funds received from 2013/2014 to 2023/2024. It shows a steady increase in revenue from Kshs 3.4 Billion in 2013/2014 to about Kshs 11.6 Billion in 2023/2024. The highest amount of funds were received in FY2020/2021 of about Kshs 11.78 Billion.

**Figure 1: Trend in Actual Total Revenue from FY2013/14 to FY2023/2024**

**Source:** Kwale County Treasury

## 2.1.1 Details on Performance of Revenue by Category

### 2.1.1.1 Performance of Equitable Share

19. The County recorded a decline in the actual transfers from the National Government allocation of the equitable share. During the 2023/2024 financial period under review **Kshs. 7,897,375,394** was received compared to **Kshs. 8,265,585,516** received in the previous period FY2022/2023 representing a 4.45 percent decline. Further, delays in the disbursement of funds from the exchequer continue to be the main challenge in the budget execution. For instance, in this period, a total of Kshs 2.92 Billion was disbursed in the fourth quarter of the period under review. This explains the increasing amount of pending bills recorded by the county government.

**Table 6: Schedule of Equitable Share Disbursement FY2023/24**

Period	Amount Received	Date Received	Funds Transfer No.	Percent of Quarterly receipts to Approved Allocation
First Quarter	729,648,814	28-Jul-23	FT23209XFNYH	
	686,728,295	25-Sep-23	FT23268CRFG0

	729,648,814	26-Jun-24	FT241786PD4L	
	<b>2,918,595,254</b>			<b>34.0</b>
<b>8,584,103,693</b>	<b>7,897,375,394</b>			<b>92.0</b>

Source: Kwale County Treasury

20. From the information above, **16.5, 16.5, and 25.0 percent** of the funds from the exchequer was disbursed during the first quarter, the second, and the third quarter consecutively. The highest disbursement (34.0 percent) was recorded in the fourth quarter. This explains the slow pace in absorption capacities for development funds recorded in the same period.

### 2.1.1.2 Performance of Conditional Grants

**21.** According to the table below, the County Government received, from conditional grants and loans a total of **Kshs 1,196,690,337** against a target of Kshs 2,977,233,783 in the approved revised budget for FY2023/2024. This represented 40.0 percent of the total amount of conditional grants anticipated. This implies an improvement of 46.1 percent in the disbursement of conditional grants and loans compared to the previous period FY2022/2023.

**Table 7: Grants Received for FY 2022/2023**

### 2.1.1.3 Performance of Own Source Revenue(OSR)

**22.** During the review period, the County Government of Kwale posted a total OSR collection of **Kshs 427,377,928** against an annual target of Kshs 600,000,000. This represents a **71.23 percent** performance in local revenue collection. This reflects a reduction in performance compared to a 86.5 percent collection posted in the previous financial period. The major revenue streams for the county during the financial year 2023/2024 were hospital fees, business permits, Land Rates, Cess fees and Advertising fees respectively.

**Table 8: Summary of Own Source Revenue Collection**

<b>Revenue Stream</b>	<b>Approved Revised Target</b>	<b>Actual Funds Collected</b>	<b>Variance</b>	<b>Percentage Collection</b>
Cess	30,909,700	31,589,841	680,141	102

**Source:** *Kwale County Treasury*

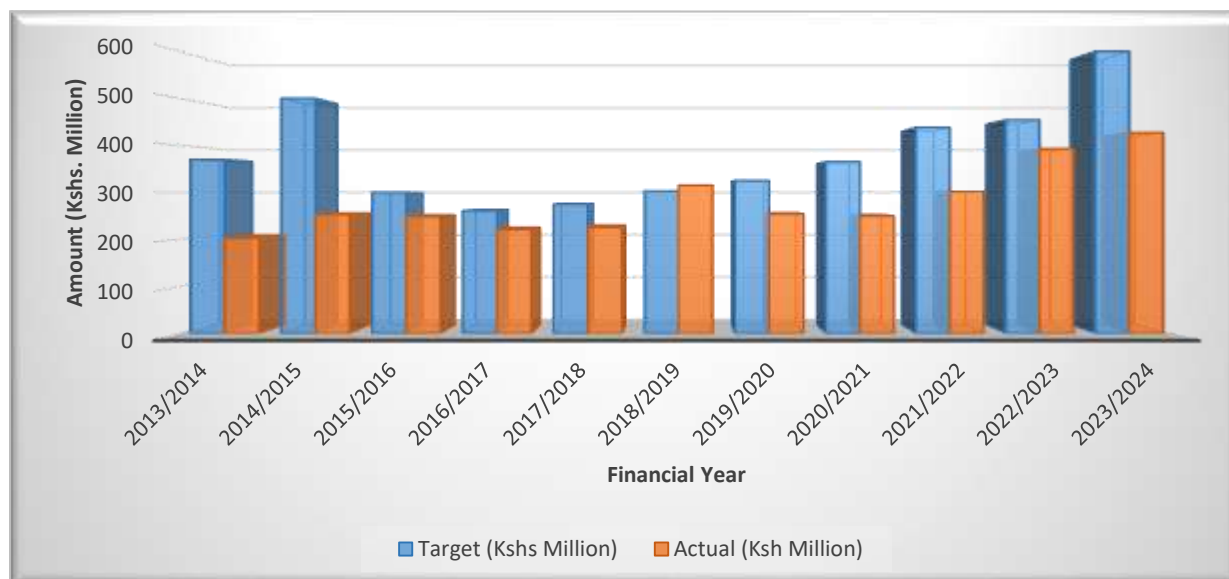

**23.** Historical trends of own source revenue collection shows remarkable improvement over the past financial years. This affirms the county's enormous potential in own source revenue collection. The county government ought to streamline the revenue raising measures to realize its full potential.

**Table 9: Analysis of Own Source Revenue from FY 2013/2014- 2023/2024**

Financial Year	Approved Revised Budget (Kshs Million)	Actual Receipt (Kshs Million)	Percentage Collected
2013/2014	370	203	54.86
2014/2015	500	253	50.60
2015/2016	300	249	83.00
2016/2017	261	221	84.67

## 2.2 Expenditure Performance and Analysis by Economic Classification

**24.** During the FY2023/2024 review period, total expenditure amounted to **Kshs. 10,183,806,876** against a revised target of Kshs.14, 259,668,763. This translates to an absorption rate of **71.42 percent** and an under performance of Kshs.4.1 Billion (29%).This under performance is on

account of irregular disbursement of funds from the national exchequer .The mining royalties amounting to **Kshs 1.16 billion** which had been budgeted to undertake most of the development was not received. This resulted in lower absorption rates especially in development expenditures by the various county government departments. Compared to FY FY2022/2023, the FY 2023/2024 performance shows a decline in the absorption rate. In FY 2022/2023 ,the county government posted an absorption rate of **81 percent** and an under performance of Kshs.2.2 Billion (19%).The total expenditure in FY 2022/2023 was **Kshs.9, 708,906,748** against a revised target of Kshs.11, 929,409,906.

**25.** Recurrent expenditure amounted to **Kshs. 7,122,716,219** (including payments of commitments from previous financial year) against a revised target of Kshs. 8, 131,343,268. This represents an **88 percent absorption** against the revised target. The underperformance of Kshs 1,008,627,049 (12.4 percent) can be partly accounted for by the shortfall recorded in the OSR collection during the same period. In the same period in FY 2022/2023, recurrent expenditure amounted to Kshs.6, 758,715,082 (including payments of commitments from previous financial year) against a revised target of Kshs.7, 061,200,490 implying a **funds utilization rate of 95.72 percent** out of the total budget allocation and an under performance of shs.302, 485,408 .This shows there was a decline in recurrent expenditure from an absorption rate of 95.7 percent in FY 2022/2023 to 88 percent in FY 2023/2024.

**26.** On the other hand, development expenditure during the same period stood at **49.95 percent** translating to **Kshs 3,061,090,657** against an approved target of Kshs. 6,128,325,495. The county had allocated 42.98 percent of the approved revised budget to development expenditure. Delayed disbursement from the national exchequer, **the non-disbursement of the mining royalties of Ksh 1.16 billion** and slow tendering processes account for the underperformance during this period. Development expenditure during the same period in FY 202/2023 recorded an absorption rate of 61 percent with Kshs.2, 950,191,667 being the total actual expenditure against the target of Kshs.4, 868,209,416. This shows a decline in development expenditure between FY 202/2023 and FY 2023/2024.

**Table 10: Summary of Expenditure by Economic Classification for FY 2023/2024**

### 2.2.1 Departmental Expenditure Performance

29. During the period under review, the department of Finance and Economic Planning poeted the highest absorption rate at **95 percent**, followed by the department of Curative Health Services and the County Executive Services at **86 percent** and **81 percent** respectively. Departments that recorded the lowest absorption capacities were the Lunga Lunga Municipality, Preventive and Promotive Health Services, and Roads and Public Works at **27 percent**, **33 percent**, **44 percent** and **46 percent** respectively.

30. However, in absolute terms, the department of Curative and Rehabilitative Health Services recorded the highest expenditures at **28.1 percent** followed by the department of Education and Finance and Economic Planning at **13.7 percent** and **12.7 percent** respectively. Lowest expenditures were recorded by Lunga Lunga Municipality, Kinango Municipality and the County Attorney at **0.14 percent**, **0.24 percent** and **0.5 percent** respectively.

### 2.2.2 Departmental Recurrent Expenditure Performance

**33.** During the FY2023/2024 review period, the County Government had an approved revised recurrent budget of Kshs 8,131,343,268 comprising of 57.02 percent of the total approved revised budget for the same period. The actual recurrent expenditure during this period stood at **Kshs 7,122,716,219** implying an absorption capacity of **87.60 percent**. This indicates an underperformance of 12.40 percent mainly on account of delays in disbursement of equitable share from national treasury and shortfall in the own source revenue collection. In the same period in FY 2022/2023, recurrent expenditure amounted to Kshs.6, 758,715,082 (including payments of commitments from previous financial year) against a revised target of Kshs.7, 061,200,490 implying a **funds utilization rate of 95.72 percent** out of the total budget allocation and an under performance of shs.302, 485,408 .This shows there was a decline in recurrent expenditure from an absorption rate of 95.7 percent in FY 2022/2023 to 88 percent in FY 2023/2024.

**34.** During this period, highest absorption capacities were recorded in the departments of Finance and Economic Planning, Curative and Rehabilitative Health Services and Education at **95 percent, 92 percent** and **91 percent** respectively. On the other hand, Lunga Lunga municipality, Kwale Municipality and the department of Preventive and Promotive Health Services posted the least budget execution rates on recurrent budgets at **30 percent, 36 percent** and **37 percent** respectively.

**Table 16: Summary of Total Recurrent Expenditure**

### **2.2.3 Personnel Emoluments Expenditure Performance**

**36.** The actual expenditure on personnel emoluments in the FY2023/2024 period was **Kshs 3,805,359,785** against an approved target of Kshs 3,997,188,297 representing a budget execution rate of **95.20 percent**. This indicates a **26.69 percent** of the total approved revised budget for the period under review. This is in line with the provisions of the Public Finance Management Regulations 2015 that capped expenditure on salaries and other benefits to 35 percent. During the same period in FY 2022/2023, the County Government spent a total of **Kshs.3, 191,006,955** on personnel emoluments against a revised annual target of **Kshs.3, 350,723,102**. This represented a **26.75 percent** of the total County Government's revenue during the same period. This shows there was improvement in the personnel emoluments expenditure between FY 202/2023 and FY 2023/2024

**37.** The department of Medical and Public Health Services spent **Kshs.1.95 Billion** which accounted for 51 percent of the total expenditure on personnel emoluments owing to its large staff establishment. Other departments with bigger expenditures on personnel emoluments were Education at **Kshs.592 Million** (15.60 %) and Finance and economic planning at **Kshs. 265 Million** (7 %). Departments that recorded lowest expenditures on personnel emoluments were the departments of Tourism and ICT at **Kshs. 25.3 Million** (0.7 % ) and County Public Service Board at **Kshs 28.86 Million** (0.8 %).

**Table 18: Summary of Departmental Expenditure Performance on Personal Emoluments**

**Source:** Kwale County Treasury

**38.** The approved target expenditure on personnel emoluments rose from Kshs 3.79 Billion in the approved estimates to approximately Kshs 4.0 Billion in the approved revised estimates. The actual expenditure during the same period was Kshs. 3.81 Billion representing an absorption rate of **95.20 percent**. The shortfall of 4.80 percent amounting to Kshs 191,828,512 was earmarked to cater for promotions and recruitments during the same period, but were not effected.

**39.** In terms of absorption capacities, all the county departments posted higher rates. The department of Finance and Economic Planning recorded 100 percent absorption rate, followed by Social Services and Talent Management, Health Services, Trade and Cooperative Services and Public Service and Administration at **98 percent**, and **96 percent** respectively.

**40.** The table below shows the comparison of expenditures on personnel emoluments between FY2022/2023 and FY2023/2024.

## 2.2.4 Operations and Maintenance Expenditure Performance

**41.** The actual expenditure on the period under review was **Kshs 3,317,356,434** against a revised budget of **Kshs 4,134,154,971**, implying a **80.24 percent** absorption rate. The county's essential expenditures under operations and maintenance include the Elimu Ni Sasa programme where the scholarship and bursary programme is implemented. Others are provision of medical drugs under the department of Health Services, and the staff medical cover under the department of Finance and Economic Planning. During the same period in FY 2022/2023, the actual expenditure on operations and maintenance was **Ksh 3,567,708,127** against a revised budget of **Ksh 3,710,477,388**, depicting a **96.2 percent** absorption rate. This shows that absorption rate went down between FY 2022/2023 and FY 2023/2024 implying a significant decline in operations and

maintenance expenditure. This is attributable to delays in disbursement of funds resulting in huge pending bills.

**42.** The department that recorded the highest absorption rate on operations and maintenance expenditures is Finance and Economic Planning at **94 percent**. Others that recorded impressive performance are Education (89%), Curative and Rehabilitative Health Services (83%) and the County Assembly (83%). The department of Tourism and ICT, Lunga Lunga Municipality, and Kwale Municipality, on the other hand posted dismal performance on operations and maintenance at **21 percent**, **30 percent** and **36 percent** respectively.

**Table 20: Expenditure Performance on Operations and Maintenance FY2023/2024**

Vote	Department	Operations and Maintenance Expenditure				
		Approved Estimates	Revised Estimates	Actual Expenditure	Absorption Capacity (%)	% of Total Expenditure

### 2.3 Development Expenditure Performance

**44.** During the review period, FY2023/2024, the County Government of Kwale allocated **Kshs.6, 128,325,495** on development expenditure (including payments on commitments from previous financial year), representing **43.0 percent** of the total revised estimates. In the same period, the actual expenditure on development programmes amounted to **Kshs.3,061,090,657**, representing a budget execution rate of **49.95 percent** and an under performance of **Kshs.3,067,234,838**. The underperformance can be attributed to delays in the disbursement of funds to the County Revenue Fund (CRF) and the mining royalties amounting to **Kshs 1.16 billion**. The county government was unable to implement projects which were to be funded by the grant from the proceeds of mining royalties.

**45.** During the same period in FY2022/2023, the County Government had allocated **Kshs.4, 868,209,416** on development expenditure and spent a total of **Kshs.2, 950,191,667**. This represented an under performance of Kshs.1, 918,017,749 and an absorption capacity of **60.60 percent**. **This indicates that there is a significant decline in development expenditure between FY 2022/2023 and FY 2023/2024.**

**46.** The departments that posted higher absorption rates are Public Service and Administration, Kwale Municipality and Finance and Economic Planning at **78 percent**, **71 percent** and **70 percent** respectively. However, in absolute terms the department of Water Services recorded the highest expenditure of Kshs1, 132,800,827 accounting for 37.0 percent of the total county actual development expenditure. Other departments that posted good performance in absolute terms are Roads and Public Works (11.1%), and Agriculture, Livestock and Fisheries (9.2%).

## 2.4 Overall Balance and Financing

**50.** In line with the performance in expenditure and revenues, the fiscal balance amounted to **Kshs1,435,970,141**. This amount will be captured in the first supplementary budget FY2024/2025 to implement the intended programmes and projects in the same period.

**Table 25: Overall Fiscal balance and Financing FY2023/2024**

## **2.5 Fiscal Performance for the FY2023/2024 in Relation to Financial Objectives**

**51.** The fiscal performance in the FY2023/2024 will affect the financial objectives as set out in the PFM Act, 2012 and outlined in the 2024 CFSP and the budget for FY2024/2025 in a number of ways: -

**52.** The baseline ceilings for spending departments will be adjusted to factor in the revised resource envelope and the non-implemented programmes and projects under the updated macroeconomic framework.

**53.** The under- spending in both recurrent and development budget for the FY2023/2024 has implications on the base used to project expenditures in the FY2024/2025 and the medium term. Appropriate revisions have been undertaken in the context of this CBROP taking into account the budget outturn for the review period.

**54.** As highlighted above, the reasons for the deviations from the financial objectives include: shortfalls in OSR collection and delays in the transfer of funds by the National Government to the CRF. This has adverse impact on the implementation of both recurrent and development programmes. To remedy these deviations, the fiscal outlook will focus on strengthening own source revenue collection by solving the disagreement surrounding the 2024 Kwale County Finance Bill which contain revenue raising measures and enhancing procurement planning.

## **2.6 Compliance with Fiscal Responsibility Principles**

### **2.6.1 Development Expenditure**

**55.** In managing the County Government's finances, the Public Finance Management Act, 2012 Section 107(b) requires that over the medium term, a minimum of 30 percent of each County Government's budget shall be allocated to development expenditure. In complying with this legal requirement, the County Government of Kwale in the FY2023/2024 allocated 43 percent of its budget on its development budget.

### **2.6.2 Recurrent Expenditure**

**56.** The PFM Act 2012, also in relation to expenditures on recurrent budget stipulates that the total expenditure on recurrent budget should not exceed the county's total revenue. During the period under review the actual recurrent expenditure was at 7.12 Billion while the total actual revenue was 11.62 Billion. In summary this report is prepared within the expected legal framework.

### **2.6.3 Personnel Emoluments**

**57.** Regulation 25(1) (b) of the PFM (County Governments) Regulations, 2015, requires that the county government's expenditure on wages and benefits for its public officers shall not exceed thirty-five (35) percent of the county government's total revenue. Again the County Government of Kwale kept the wage bill below the legal threshold by allocating 26.69 percent on personnel emoluments.

### **2.6.4 Own Source Revenue**

**58.** In line with the provisions of Section 107 (2g) of the PFM Act, 2021 A reasonable degree of predictability with respect to the level of local revenue bases shall be maintained, taking into account any reforms and measures put in place to steer the county along the transformative trajectory

## **CHAPTER THREE: RECENT ECONOMIC DEVELOPMENTS AND OUTLOOK**

### **3.0 Global Economic Scene**

**59.** World real GDP growth is estimated to have slowed from 3.5 per cent in 2022 to 3.1 per cent in 2023. The decline in the growth was attributed to disruptions emanating from the remnant effects of COVID-19, the Russia-Ukraine conflict and tightened monetary policies in a number of economies. Advanced economies expanded by 1.6 per cent in 2023 compared to 2.6 per cent growth rate experienced in 2022 largely due to tighter monetary conditions within the bloc and a lower than anticipated growth rate in the Euro Area. Growth in Emerging Markets and Developing Economies (EMDEs) remained at 4.1 per cent in the period under review.

**60.** Sub - Saharan Africa (SSA) region saw a decline in real GDP growth rate to stand at 3.3 per cent in 2023, compared to 4.0 per cent growth in 2022. Three of the region's largest economies Nigeria, South Africa, and Angola recorded slower growth rate. East African Community (EAC) recorded a slower growth rate of 5.0 per cent in 2023 compared to 5.2 per cent growth recorded in 2022 as a result of fluctuations in commodity prices and budget challenges.

**61.** World inflation eased to 6.8 per cent in 2023 from 8.7 per cent in 2022 partly due to lower energy prices, easing of the supply chain disruptions and a tighter monetary policy to reduce aggregate demand for goods. Global trade volume slowed to 0.4 per cent in 2023 compared to the 5.2 per cent growth recorded in 2022. This decline was mainly due to base effects as the world economy recovered from the COVID-19 pandemic. Global unemployment declined to 5.1 per cent

in 2023 from 5.3 per cent in 2022 supported by expansion of employment opportunities particularly in advanced economies.

**Table 26: Global Economic Performance**

Economy	Growth (%)			
	Actual	Estimate	Projections	
	2022	2023	2024	2025
World	3.5	3.3	3.2	3.3
Advanced Economies	2.6	1.7	1.7	1.8
<i>Of which: USA</i>	1.9	2.5	2.6	1.9
<i>Euro Area</i>	3.4	0.5	0.9	1.5
<i>United Kingdom</i>	4.3	0.1	0.7	1.5
<i>Japan</i>	1.0	1.9	0.7	1.0

Kenya*	4.9	5.6	5.2	5.4

*Source: IMF World Economic Outlook, July 2024. \*National Treasury Projection*

### 3.1 Kenya's Economic Performance

62. Real Gross Domestic Product (GDP) expanded by 5.6 per cent in 2023 compared to a revised growth of 4.9 per cent in 2022. The positive growth was notable across most sectors of the economy. The Agriculture, Forestry and Fishing sector grew by 6.5 per cent in 2023, marking a recovery from the 1.5 per cent contraction recorded in 2022. This recovery was mostly attributed to favorable weather conditions that prevailed through most of the year. Other key drivers of the growth included Information and Communication (9.3%), Transportation and Storage (6.2%),

Financial and Insurance (10.1%), Real Estate (7.3%) and Accommodation and Food service activities (33.6%) sectors. However, the Mining and Quarrying sector recorded a 6.5 per cent contraction, largely attributable to a decline in production of most of the minerals such as titanium and soda ash.

**63.** In 2023, agriculture remained the dominant sector, representing 21.8 per cent of the total GDP. Combined, service activities contributed 61.3 per cent of the GDP while industry-related activities comprised 16.9 per cent of the GDP in 2023. Nominal GDP grew by 12.0 per cent reaching Kshs 15,108.8 billion in 2023, from Kshs 13,489.6 billion in 2022. Gross National Disposable Income increased to Kshs 15,882.5 billion in 2023 from Kshs 14,051.0 billion in 2022.

**64.** Additionally, the Gross Domestic Product (GDP) per capita at current prices improved to Kshs 293,229 in 2023 from Kshs 266,473 in 2022. Private final consumption expenditure increased to Kshs 11,517.1 billion from Kshs 10,106.6 billion recorded in 2022, accounting for slightly above three-quarters of the total GDP. Similarly, government final consumption expenditure increased from Kshs 1,647.5 billion in 2022 to Kshs 1,800.2 billion in 2023.

**65.** Employment in the modern and informal sectors, excluding small-scale farming and pastoralist activities, went up from 19.1 million in 2022 to 20.0 million in 2023. Total new jobs generated in the economy were 848.2 thousand in 2023. In the year under review, wage employment in the modern sector grew by 4.1 per cent which translated to creation of 122.8 thousand new jobs in the sector. The informal sector created 720.9 thousand new jobs and accounted for 85.0 per cent of all the new jobs created in 2023. Public sector wage employment registered a growth of 5.9 per cent in 2023 compared to 1.6 per cent recorded in 2022.

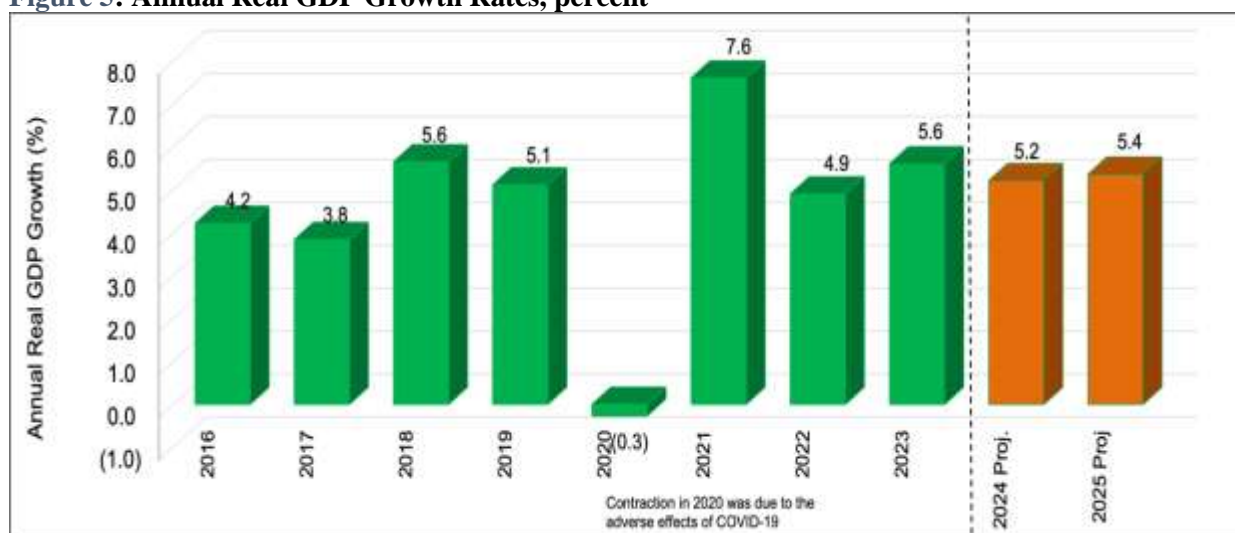

**66.** The nominal wage bill rose by 7.3 per cent to Kshs 2,798.6 billion in 2023. The private sector wage bill went up by 8.2 per cent to Kshs 1,965.9 billion in 2023, while the public sector wage bill increased by 5.3 per cent and accounted for 29.8 per cent of the total wage payments in 2023. The Teachers Service Commission wage bill rose by 6.5 per cent to Kshs 285.0 billion and accounted for 34.2 per cent of total public sector wage bill in 2023.

**67.** In the year under review, overall annual average earnings increased by 3.4 per cent to Kshs 894,232.8 compared to Kshs 864,750.1 in 2022. Annual average earnings in the private sector increased by 5.4 per cent to Kshs 920.0 thousand in 2023, while those in the public sector decreased

by 0.5 per cent to Kshs 838.7 thousand in 2023. Overall, real annual average earnings per employee decreased by 4.1 per cent to Kshs 667.3 thousand in 2023. Real annual average earnings per employee in the private sector declined by 2.5 per cent to Kshs 686.4 thousand in 2023, while those in the public sector declined by 7.8 per cent to Kshs 625.9 thousand over the same period.

**68.** The annual inflation rate as measured by the Consumer Price Index (CPI) was 7.7 per cent in 2023 as was recorded in 2022. The inflation was largely driven by increase in prices of Transport (12.2%); Food and Non-Alcoholic Beverages (9.7%); and Housing, Water, Electricity, Gas and Other Fuels (8.1%).

**Figure 5: Annual Real GDP Growth Rates, percent**

## 3.2 Kwale County Economic Performance and Outlook

### 3.2.1 Gross County Product

**69.** The Gross County Product (GCP) is a disaggregation of the National Gross Domestic Product (GDP) that shows how much the county contributes to the national economy. Estimates of the GCP plays an essential role in formulating, implementing and evaluating policies in the county.

### 3.2.2 Gross County Product Concept

**70.** Gross County Product is conceptually equivalent to the county share of GDP. Gross Domestic Product is a measure of newly created value through production by resident economic agents

(individuals, households, establishments and enterprises resident in Kenya). On the other hand, GCP measures newly created value through production by economic agents' resident in a specific region, in this case, a county. Therefore, the Gross County Products for the 47 counties should sum up to Kenya's GDP.

### 3.2.3 Identity between GCPs and GDP:

Sum of gross value added by all counties (total GCP) + Gross value added by extra-regional territory + Taxes on products - Subsidies= **GDP**

### 3.2.4 Nominal Gross County Product

This section presents the GCP estimates at current prices and the county contribution to the total gross value added of the economy.

### 3.2.5 Gross County Product at Current Prices

The figure below represents the GCP estimates at current prices of Kwale County for the period 2018 to 2022.

**Figure 6: Kwale County GCP Estimates 2018-2022**

*Source: Kenya National Bureau of Statistics*

### 3.2.6 County Share of GCP

**71.** County shares of GCP from 2018 to 2022 are shown in the table below. Over the period 2018-2022, the Kwale shares seemed unchanged across the years.

**Table 27: County Shares, Kshs Million, 2020- 2022**

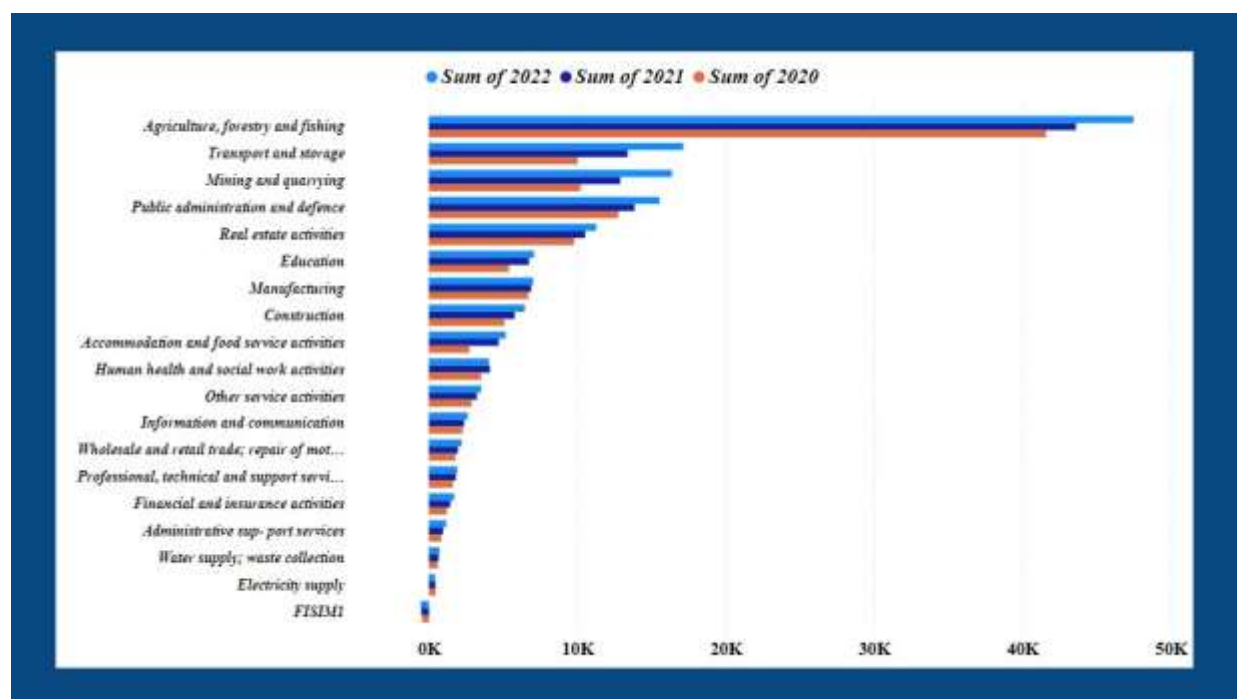

County	2018	2019	2020	2021	2022	5-Year Average
MOMBASA	5.1	5	4.8	4.8	4.6	4.9

County	2018	2019	2020	2021	2022	5-Year Average
KWALE	1.2	1.2	1.2	1.2	1.2	1.2

### 3.2.7 Gross County Product Contribution by Broad Sectors of the Economy

**Figure 7: GCP by Economic Activity at Current Prices, Kshs Million, 2020- 2022 Kshs Million**

*Source: Kenya National Bureau of Statistics*

### 3.2.7.1 Agriculture, Forestry and Fishing

**72.** The agricultural sector contributes about 21.0 per cent of the GDP, thereby exerting a significant influence on the overall economic performance. Counties with favorable conditions for agricultural activities recorded higher GCP compared to those that engage in other economic activities. Key findings on the average county contributions to Agriculture, Forestry, and Fishing activities during the 2018-2022 period are enumerated below.

**73.** The five leading counties in agricultural production were Meru, Nakuru, Nyandarua, Murang'a, and Kiambu. These counties exhibited diverse agricultural outputs, including tea, coffee, maize, vegetables, potatoes, and raw milk and performed better than counties relying on a narrower range of agricultural produce. Meru County stood out due to its abundant agricultural yield, particularly in fruits, and availability of forest resources. Notably, counties specializing in tea production, like Murang'a, Nandi, Kisii, Kericho, and Kiambu, made substantial contributions to the overall agricultural production.

**74.** Kwale county has put several efforts towards this sector so as to ensure food security and increased income. In the period under review local farmers benefited from the distribution of subsidized agricultural assets and farm inputs ahead of the March-April long rains. These included

certified seeds, fertilizers, power sprayers, insecticides and fungicides. Local small scale farmers have also been capacity built to enhance productive capacity for food and nutrition security.

**75.** The county through grant support from development partners has also initiated livestock production intervention programmes. More than 1500 galla goats have been issued to boost farmers in meat and milk production. Galla goats are known for their great economic value and simplicity in managing the breeds. Farmers across the 20 wards also received bucks and pedigree bulls to improve the indigenous breeds. This value chain has been empowered to reinforce resistance to harsh climatic conditions as well as empower beneficiaries to improve their livelihood, boost food security and reduce poverty.

**76.** Despite fishing activities having a relatively modest share in total agri- culture GVA compared to crop and animal production, Homa Bay, Kisumu, Siaya, Mombasa, and Marsabit benefitted from fishing activities, contributing 6.5 per cent to the total agriculture GVA.

### **3.2.7.2 Manufacturing**

**77.** The Manufacturing sub-sector grew by 1.3 percent in the first quarter of 2024 compared to 1.7 percent growth in the corresponding quarter of 2023. In the manufacture of food products, growth was supported by tea and dairy processing inspite of the decline in the production of soft drink. In addition, the production of cement declined in the review period.

### **3.2.7.3 Other Industry Activities Excluding Manufacturing**

**78.** The Electricity and water supply sub-sector also recorded a decelerated growth of 2.4 percent in the first quarter of 2024 compared to a growth of 3.7 percent in the corresponding quarter of 2023 supported by an increase in hydroelectric power generation and a decrease in thermal power generation. Electricity generation activities boosted the contributions of the counties of Nakuru and Embu. Similarly, the contributions of Kwale, Migori, and Kajiado counties were augmented by mining and quarrying activities.

**79.** Activities in the construction sub-sector similarly registered a decelerated growth of 0.1 percent compared to 3.0 percent growth recorded in the first quarter of 2023. The slowdown in the construction sub-sector was reflected in the decline in the volume of cement consumption and imported bitumen. However, the volume of iron and steel imported increased during the review period.

#### **3.2.7.4 The Services Sector**

**80.** The activities in the **services sector** continued to sustain strong growth momentum in the first quarter of 2024 and grew by 6.2 percent compared to a growth of 6.5 percent in a similar period in 2023. The performance was largely characterized by significant growths in accommodation and food service, financial and insurance, information and communication, real estate, and wholesale and retail trade sub-sectors. Accommodation and food service activities reflected post COVID recovery in spite of the lingering effects of the pandemic.

**81.** Consequently, the sub-sector grew by 28.0 percent in the first quarter of 2024 compared to a growth of 47.1 percent recorded in the corresponding quarter of 2023. Nairobi City contributed a relatively higher share of services to the national GVA at 37.3 per cent on average. Mombasa and Kiambu are the only other counties that contributed 5.0 per cent and above each to the total GVA of services in Kenya. Twenty-one out of forty-seven counties each contributed less than 1.0 per cent to the services GVA.

#### **3.3 2024 Economic Outlook**

**82.** In 2024, the global economy is expected to grow at a similar pace as 2023, but slower than the historical (2000–19) annual average of 3.8 percent. This is on account of restrictive monetary policies, withdrawal of fiscal support, low underlying productivity growth, as well as escalating geopolitical fragmentations that could result in higher commodity prices despite a projected decline in global headline and core inflation. On the domestic front, Kenya's economy is projected to remain resilient in 2024 mainly supported by a robust services sector, strong performance in agriculture aided by anticipated adequate rainfall and a decline in global commodity prices that is expected to reduce the cost of production. In addition, the distribution of the subsidized fertilizer and seed subsidy program is expected to support the agriculture sector's growth. This is revealed through the leading indicators that point to continued strong performance of the economy in the first quarter of 2024, on account of robust activities in the agriculture and service sectors, particularly accommodation and food services, as well as information and communication.

**83.** Further, the ongoing implementation of measures by the Government in priority sectors namely: Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME) Economy; Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry under the Bottom Up Economic Transformation Agenda (BETA) is expected to boost

economic activity, accelerate growth as well as support recovery. On the demand side, the easing of inflationary pressures is likely to lead to a strong household disposable income, which will in turn support household private consumption and robust private sector investments coupled with Government investments.

### **3.4 Risks to the Economic Outlook**

**84.** Despite the stable macroeconomic environment there are risks emanating both domestically and externally. The geopolitical tensions between the Middle East and Ukraine have resulted in worsening of supply disruptions due to shipping crisis hence higher imports and production costs globally as a result of uncertainty of international oil prices. Internally extreme changes on weather conditions could weaken agricultural outputs increasing food insecurity and increased cases of water borne diseases.

**85.** Tight global and domestic financial conditions arising from lower than anticipated global economic growth could reduce exports, tourism receipts and growth of remittances while increase in global fuel prices increase import bills.

**86.** The macroeconomic outlook at the County may face the following risks(i) increasing wage bill due to continued recruitment of employees in public service at the County will shrink the resources to be allocated for development. In the long-run this will impede the objective of rapid socio-economic development (ii) delays in the release of funds from the National Treasury poses risk to the County economic outlook. Delays often lead to late implementation of county programmes and projects. As the public expenditure on projects is delayed, contractors, supplies and manufacturers are affected. This has the overall effect of reduced investments in the local economy and especially the building and construction sectors and others.

**87.** Adverse weather conditions resulting in drought may cause inflation in food items. In severe cases this may cause starvation and hunger necessitating drought emergency services. This also has a multiplier effect on the other sectors and the productivity of labour and growth of the economy;

**88.** Lower revenue collection against the target at the National Level by the Kenya Revenue

Authority may impede growth of the equitable share of income for counties. While this is the case, low local revenue collection may impact negatively in sustaining growth at the county. The tight fiscal stance being pursued by Government may also lead to tight liquidity affecting aggregate demand.

**89.** This notwithstanding, the outlook for the domestic and county economy may be hampered by risks related to unpredictable weather conditions occasioned by climate change which could adversely affect agricultural production and result in domestic inflationary pressures. The tight fiscal stance being pursued by Government may also lead to tight liquidity affecting aggregate demand.

## **CHAPTER FOUR: RESOURCE ALLOCATION FRAMEWORK**

### **4.0 Implementation of the 2024/2025 budget**

**90.** The implementation of the FY2024/2025 budget has encountered several hurdles following tight fiscal policy by the Kenya Kwanza administration. The withdrawal of the Kenya 2024 Finance Bill and the Kwale County 2024 Finance Act further complicated matters leading to significant delays. Additionally, the disagreement between the council of governors and the Senate which resulted in the delay in enacting the Division of Revenue Bill exacerbated the financial uncertainty.

**91.** As the National Government works to stabilize and restructure its institutions, counties continue to face prolonged delays in receiving funds from the National Treasury. This results in a slow start to the financial year with disbursements being sluggish during the first quarter of the financial year. However, there is a glimpse of hope with the establishment of the broad-based government in Kenya. The formation of a broad-based government in Kenya has significant economic implications at both national and county levels. A broad-based government will enhance political stability, which is critical for economic growth. Stability often leads to increased investor confidence, attracting both domestic and foreign investment.

**92.** The need to prepare the first supplementary budget for the year has arisen due to the expenditure push resulting from FY2024/2025 budgeted revenue shortfall due to non-remittance of grants and royalties by the National treasury totaling Kshs 3,775,541,683. Additionally, the ambitious target of Kshs 450 million for own-source revenue may be unrealistic given previous collection trends of Kshs 427.38 million in FY2023/2024, Kshs 393 million in FY2022/2023, and Kshs 302.7 million in FY2021/2022 which also incorporated fees and charges from Health services. To achieve a more sustainable financial outlook, a downward adjustment to a more achievable figure is necessary.

**93.** Consequently, the Revenue Mobilization Directorate will focus on implementing new revenue strategies through the development of a Medium Term Revenue Strategy. This strategy will outline a clear roadmap and realistic targets for effective revenue collection and mapping. Additionally, it will include expenditure rationalization targeting recurrent and development budgets for all County departments.

**94.** The FY 2024/2025 budget will be revised based on current expenditure performance, new spending pressures from key departments, and each department's ability to utilize the allocated funds for the rest of the fiscal year. This approach aims to prevent over-allocating resources to departments with limited absorption capacity or to non-priority expenditures.

#### **4.1 Fiscal Policy for FY 2025/26 and Medium Term Budget**

**95.** The fiscal position for FY 2025/26 and the medium term is designed to support the key priority programs of the County within the Kwale County transformation agenda, while also addressing the increasing demands of public service delivery. The strategy intends to establish an efficient liability management approach that does not jeopardize the quality of services provided to citizens.

**96.** The Medium Term Expenditure Framework (MTEF) for FY2025/26 to 2027/28 is being developed alongside the first supplementary budget for FY2024/2025. It is also being drafted right after the County Annual Development Plan (CADP FY2025/2026) is submitted to the County Assembly for review and approval. This process aligns with the constitutional mandate that budgeting and expenditure must be guided by planning, as specified in Section 107(2) of the County Government Act 2012.

**97.** Fiscal consolidation will be reinforced by ongoing efforts to improve the mobilization of the

county's own revenue sources, reassess and streamline expenditures while protecting key programs and social spending in Kwale County. There will be an emphasis on boosting revenue through a blend of tax administrative and policy reforms that include:

- i. The implementation of the Kwale County Finance Bill 2024.
- ii. Strengthening tax administration to improve compliance by expanding the tax base, reducing tax expenditures, utilizing technology to transform tax processes, closing revenue gaps, and enhancing the efficiency of the tax system.
- iii. A focus on non-tax measures that county departments can generate through the services they provide to the public.

**98.** The priorities, strategies, and actions outlined in this medium-term framework will be based on the County Sectoral Plans, the third-generation County Integrated Development Plan (CIDP III 2023-2027), the Governor's Manifesto, the Food Security and Bottom-Up Economic Transformation Agenda (BETA), the Fourth Medium Term Plan (MTP IV), Kenya Vision 2030, and the World Development Agenda 2030 Sustainable Development Goals (SDGs). Specifically, in the upcoming medium term, the County Government will prioritize the swift execution of key flagship projects to ensure accelerated economic growth and the successful achievement of the transformation agenda.

**99.** Conversely, the county administration will maintain efforts to enhance efficiency in public spending and minimize non-essential costs. This will involve enacting austerity measures intended to lower the county's recurrent expenses. Additionally, to decrease development spending, the county will increase the use of public-private partnerships for commercially feasible projects while taking into account the potential liabilities associated with this framework. The county will also review its portfolio of projects, including those funded externally, to restructure and align them with the Kwale County Transformation Agenda and the governor's manifesto. Furthermore, the county will persist in executing the valuation roll, which aims to optimize value for money

#### **4.1.1 Fiscal Projections**

**100.** The income for the fiscal year FY 2025/26 will be projected based on the actual revenue performance data from FY 2023/2024. Additional efforts need to be made to improve revenue collection in the county. This will involve upgrading the automated revenue management system, increasing the recruitment and training of revenue collection personnel, and conducting revenue

mapping to ensure greater efficiency in revenue collection.

**101.** The county's total expenditure is projected to decrease to Ksh **9,127,499,175** in **FY2025/2026**, down from Ksh **12,210,530,024** in the current FY **2024/2025** approved budget estimates on a cash basis. This indicates a **25.25** percent fall in budget spending for the County.

**102.** Development expenditure limits are expected to reach Ksh **2,889,433,657** in FY **2025/2026**, a decrease from Ksh **5,197,060,407** in the current FY **2024/2025** approved estimates. This represents a decline of approximately **44.40** percent. The allocation for development expenditure will account for **31.66** percent of the projected budget resources, aligning with the fiscal responsibility principles outlined in the PFM Act 2012. Key areas/departments designated for substantial resource allocations include **Health services, Water Services, and Roads and Public Works and Education**.

**103.** Recurrent expenditures are projected to fall to Kshs **6,238,065,518** in **FY 2025/2026** from Kshs **7,013,469,617** in the current **FY2024/2025** budget estimates. The spending limits for goods and services in various sectors and departments are determined by the funding allocations in the FY **2024/2025** budget. These limits will be adjusted further during the formulation of County fiscal strategy paper 2025 in January and February 2025.

**104.** Based on the above expenditure framework for FY2025/2026, the table below provides the provisional projected baseline ceilings for the FY2025/2026 budget.

**Table 28: Provisional Expenditure Ceilings for the FY 2025/26 by Vote and Economic Classification**

<b>CODE VOTE</b>	<b>Recurrent</b>	<b>Development</b>	<b>TOTAL</b>
3061 Finance and Economic Planning	1,104,568,407	40,000,000	1,144,568,407
3062 Agriculture, Livestock and Fisheries	141,139,850	141,000,000	282,139,850
3063 Environment and Natural Resources	66,899,733	196,935,450	263,835,183
3064 Curative and Rehabilitative Health Services	2,389,433,233	267,200,000	2,656,633,233
3065 County Assembly	648,070,935	200,000,000	848,070,935

**Figure 8: County Expenditure Framework FY 2025/26**

**Source:** Kwale County Treasury

### 4.1.2 Medium Term Fiscal Projections

**106.** In the fiscal year 2025/2026, the County Administration expects total revenues of Kshs **9,127,499,175** from various sources, including grants. The County aims to generate Kshs **340,000,000** from its own revenue streams in FY 2025/26, representing a **20.45** percent decrease from the actual revenue of Kshs **427,380,000** achieved in FY 2023/2024. The county's equitable share from the National Government is projected to be Kshs **8,787,499,175** for FY 2025-2026.

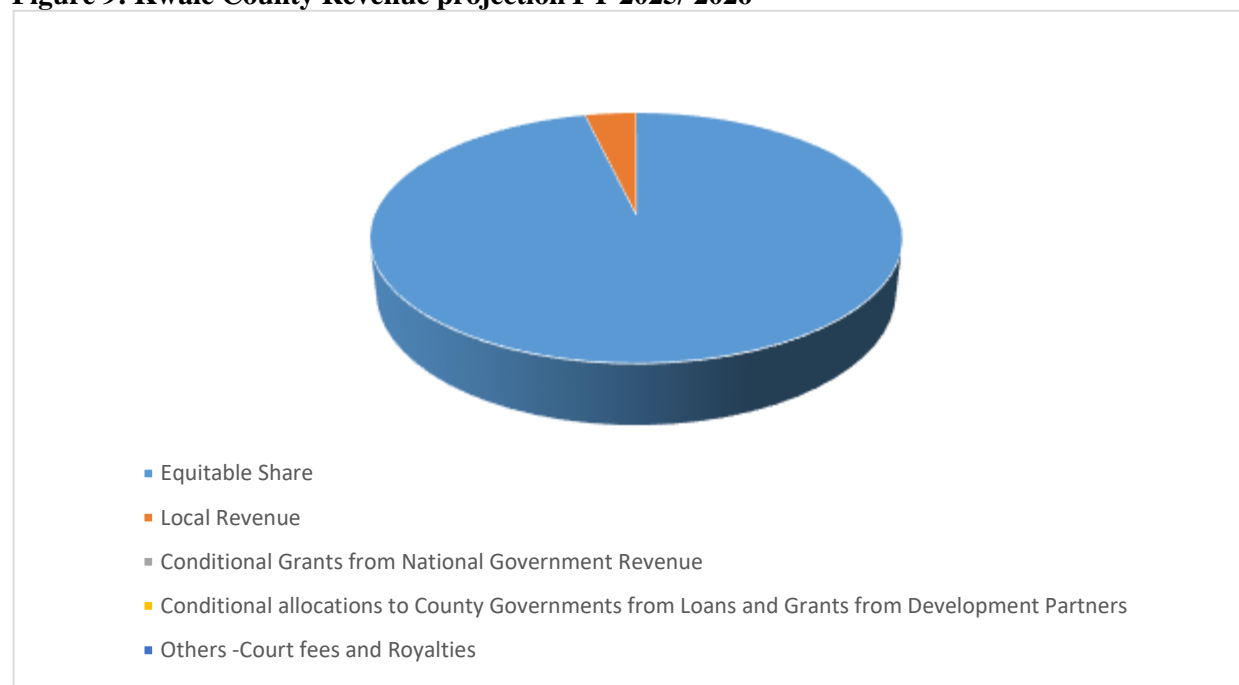

**Table 29: Resource Envelope for MTEF Budget FY2022/2023 – 2024/2025**

Source	Actuals FY2023-2024	FY2024/25 Approved Estimates	FY2025-20256 Projections
Equitable Share	8,265,585,516	8,887,499,175	8,787,499,175
Local Revenue	392,952,872	450,000,000	340,000,000
Conditional Grants from National Government Revenue	-	546,540,399	-
Conditional allocations to County Governments from Loans and Grants from Development Partners	819,028,732	1,651,977,493	-
Others -Court fees and Royalties	-	674,512,957	-
<b>Total Revenue</b>	<b>9,477,567,120</b>	<b>12,210,530,024</b>	<b>9,127,499,175</b>

**Source:** Kwale County Treasury

**107.** The county revenue envelope projections in FY2025/26 can be illustrated using the figure below

**Figure 9: Kwale County Revenue projection FY 2025/ 2026**

**Source:** Kwale County treasury

**108.** The equitable share shows a steady increase from approximately 8.27 billion in FY2023-2024 to nearly 8.89 billion in FY2024-2025, before slightly declining to 8.79 billion in FY2025-2026. This indicates a stable but slightly declining expectation for funding from central government sources in the long run, which could constrain growth if no new sources of revenue are identified.

**109.** Local revenue increases from about 393 million in FY2023-2024 to 450 million in FY2024-2025 but then is projected to drop to 340 million in FY2025-2026. The fluctuation suggests potential challenges in local revenue generation. A decrease in FY2025-2026 imply economic downturns, ineffective tax collection strategies, or declining local economic activity, necessitating a review of local fiscal policies. Total revenue projected rose significantly from about 9.48 billion in FY2023-2024 to approximately 12.21 billion in FY2024-2025, before sharply declining to around 9.13 billion in FY2025-2026. The spike in FY2024-2025 enabled enhanced public services or investments. However, the drop in FY2025-2026 raises concerns about fiscal sustainability and the potential for budget shortfalls. This volatility may lead to challenges in planning and executing long-term projects.

#### **4.1.3 FY2025/26 and the Medium-Term Expenditure Framework**

**110.** The FY 2025/26 and medium-term budget will prioritize the goals of the third generation CIDP 2023-2027, Medium Term Plan IV, and the County Transformation Agenda based on the governor's manifesto. Key areas of focus will include: healthcare, agricultural value addition and productivity, enterprise development and tourism promotion, environmental protection and natural resource management, social services and community service enhancement, as well as water service provision, road infrastructure development, training and education aimed at increasing the pace for socio-economic transformation.

**111.** In FY2025/26 and the medium term, resource distribution for priority initiatives will be conducted using a value chain strategy across the seventeen County departments. The main priorities and projects to be executed during this period include: the construction and equipping of a fruit processing facility at Shimba Hills in Kubo South ward, the establishment of an aggregated county industrial park at Mwananyamala in Dzombo ward, the creation of the Kwale International Convention Center (Bomas Of Kwale), and the tarmacking of essential County roads such as the Mkilo-Kalalani-Mavirivirini road, Vinuni-Tiwi Sokoni road, Tsimba-Lunguma road, and Mangwei-Majoreni road. The value chain strategy ensures efficient resource allocation by

reducing waste caused by duplication, overlap, fragmentation, and poor coordination in project implementation while fostering a comprehensive government approach to service delivery.

#### **4.1.4 Criteria for Resource Allocation**

**112.** All county departments will be instructed to enhance resource allocation efficiency by implementing cost budgeting and evaluating the portfolio of donor-funded projects. These goals will be accomplished within the budget limits set in the 2024 CBROP.

**113.** Sector working groups are anticipated to reduce unnecessary spending and focus on priorities that protect livelihoods, generate employment, restore businesses, and facilitate economic recovery in the county. They are also expected to ensure that every expenditure in the FY 2025/26 budget is warranted, emphasizing the allocation of scarce resources based on program effectiveness and needs rather than on incremental budgeting.

**114.** The criteria outlined below will guide the resource allocation process:

- i. Linkage of programmes with the value chains of County transformation Agenda priorities.
- ii. Linkage of the programme with the priorities of Medium-Term Plan IV of the Kenya Vision 2030.
- iii. Linkage of programme that support prevention and adaptation of climate change.
- iv. Completion of Ongoing projects.
- v. Degree to which a programme addresses job creation and poverty reduction.
- vi. Cost effectiveness, efficiency and sustainability of the program.

**115.** Following the overarching guidelines mentioned above, Sector Working Groups are anticipated to create and record specific criteria for prioritizing and allocating resources within the county's resource framework. To aid in the completion and endorsement of the 2024 CBROP and other policy documents within the specified deadlines, County departments must diligently carry out the tasks detailed in the budget calendar within the established timelines.

#### **4.2 Public Participation and Involvement of stakeholders**

**116.** In accordance with the Public Finance Management Act (PFMA) 2012, the CBROP 2024 will be made publicly available and disseminated via the County's official website

([www.kwalecountygov.go.ke](http://www.kwalecountygov.go.ke)) to allow the general public to express their opinions and provide feedback prior to its finalization. Each County department will receive a copy of the draft document for their assessment, and they will subsequently invite relevant external stakeholders to review the draft and submit their recommendations. Following this collaborative input, the document will be sent to the County Cabinet for thorough analysis before submission to the County assembly for approval.

## CHAPTER FIVE: CONCLUSION AND NEXT STEPS

**117.** The development of the 2024 C-BROP has shed light on how the budget execution for FY 2023/24 has influenced the financial goals outlined in the 2024 County Fiscal Strategy Paper. Key insights aim to enhance revenue generation and address ongoing challenges that hinder the execution of the development budget. To improve outcomes, the County Treasury recommends close monitoring of the implementation of the FY 2024/25 budget by analyzing quarterly expenditures against the approved budget. Additionally, providing timely financial guidance to County Government departments is crucial for effective budget management.

**118.** Further recommendations provided by this 2024 C-BROP include:-

- i. **Enhance Revenue Collection:** Implement strategies to diversify and strengthen revenue sources, ensuring they are maximized and efficiently managed.
- ii. **Regular Monitoring:** Establish a robust system for quarterly budget reviews to ensure that expenditures align with the approved budget, enabling proactive adjustments.
- iii. **Streamline Processes:** Identify and eliminate bottlenecks in budget implementation to facilitate smoother execution of development projects.

- iv. **Financial Training:** Provide ongoing financial training for County Government departments to improve their understanding of budget management and financial reporting.
- v. **Timely Reporting:** Ensure that financial reports are generated and communicated promptly to support informed decision-making.

**119.** Considering the financial results and the revised macroeconomic forecast, decisions have been made regarding the establishment of expenditure limits for various sectors and departments. These preliminary limits also reflect the priorities outlined in the Annual Development Plan for FY2025/26. The temporary limits and strategic priorities will be finalized in the forthcoming County Fiscal Strategy Paper in February 2025.

#### ANNEX 1: STATUS OF DEVELOPMENT PROJECTS FY 2023/2024

##### DEPARTMENT OF HEALTH

Project Name	Project Location	Contract Sum	Budget	Amount Paid To date	Implementation Status
<b>Curative Health Care Services</b>					
Construction of Maternity Wing at Mwananyamala	Dzombo ward	1,838,568	1,838,568	1,838,568	100%
Proposed Construction of maternity wing at Mwachinga Dispensary in Kinango Ward	Kinango ward	894,075	894,075	894,075	100%
Proposed Construction of maternity wing at Chigato Dispensary in Kasemeni Ward	Kasemeni ward	329,308	329,308		0%
Renovation of Msambweni Hospital	Ramisi ward	381,075	381,075	381,075	100%

## COUNTY BUDGET REVIEW AND OUTLOOK PAPER, 2024
